

## About Combination Products Summit 2022

The Association of Food and Drug Officials (AFDO) and the Regulatory Affairs Professionals Society (RAPS) have come together to support sharing, collaboration, and learning across the global healthcare products community. With a focus on fostering open discussions of the most pressing issues facing the industry, the AFDO/RAPS Healthcare Products Collaborative will carry on Xavier Heath's legacy of delivering the Combination Products Summit.

The AFDO/RAPS Healthcare Products Collaborative reflects the commitment of both organizations to continue the important work Xavier Health has done to advance the industry. This new partnership will also produce and continue Xavier Health's other industry events—including the MedCon Conference, PharmaLink Conference, and AI Summit.

The AFDO/RAPS Healthcare Products Collaborative combination products community continues to be led by top FDA officials and worldwide industry leaders who built the framework for the regulatory landscape of combination products. This global community drives innovation and navigates the complexities specific to the world of combination products, resulting in the delivery of safe, effective and high-quality products to the patients who need them.

And all of these exciting discussions come to life at the Combination Products Summit!

## Support Continued Combination Products Innovation and Advancement at this Premier Event

Since 2015, the Combination Products Summit has united the healthcare products industry to work for a better tomorrow. Your sponsorship will demonstrate your support as a thought leader as we seek out solutions for a dynamic industry with evolving regulations.

Thank you for considering one of the following levels of support.
